Joint Mayor's Message

On behalf of the members of Council from the Township of Asphodel-Norwood, the Township of Cavan Monaghan, and the Township of Otonabee-South Monaghan, we are pleased to present the Townships' joint Community Safety and Well-being (CSWB) Plan.

An important municipal government responsibility is the safety, health and wellness of our residents. This Plan is about working collectively to develop fair and equitable responses to the emerging issues within our respective communities to help ensure that all residents enjoy the opportunity to feel safe and connected; while recognizing that not all residents experience the same sense of safety and well-being and the struggles are unique to each individual.

This joint CSWB Plan allows us to be responsive, adapt to the needs of our residents, and use data to make evidence-based decisions. We need to consider new ways of confronting the complex challenges facing our communities and rethink the ways in which we deliver services to meet the needs of our residents. The goal of this Plan is to achieve greater organization coordination and collaboration on issues and situations before they escalate. It is extremely important to continue to build and strengthen partnerships across sectors and we thank our community partners for coming together and assisting with the development of this Plan.

We have every confidence that together, we can improve safety and well-being for everyone; and look forward to working collaboratively alongside the community to accomplish our shared goals and keep our residents safe and thriving.

Introduction

CSWB

In January 2019, new requirements for Community Safety and Well-being (CSWB) planning came into force. The Police Services Act, 1990 (PSA) was amended, and municipalities across Ontario were given time to develop and adopt a CSWB plan. As part of the legislation, municipalities were required to develop and adopt a CSWB Plan in partnership with stakeholders and community groups.

A CSWB Plan is a tool to address key social priorities for safety and well-being achieved through multi-sectoral partnerships working together towards sustainable communities where everyone feels safe, has a sense of belonging, and opportunities to participate; and also where individuals and families are able to meet their needs for education, health care, food, housing, income, and social and cultural expression.

The global COVID-19 pandemic and the provincial state of emergency declared in March 2020 significantly affected communities in Asphodel-Norwood, Cavan Monaghan, and Otonabee-South Monaghan. The contents of this Plan reflects the impact of COVID-19 and represents the partnership between our municipalities.

Exploring options to address risks through the Ontario CSWB planning framework and taking into consideration factors critical to success; this Plan recognizes the great work already happening within our region, and seeks to do more with collaboration and promotion of local experience and expertise.

Critical Success Factors

The CSWB Planning Framework

The Ministry of the Solicitor General created a framework to help support the development of each CSWB Plan.

As a long term strategy to make safety and well-being a reality for vulnerable individuals, families, groups, and locations, this Plan includes strategies at four levels of intervention:

1. **Social Development** · Promoting and maintaining community safety and well-being
2. **Prevention** · Reducing identified risks
3. **Risk Intervention** · Mitigating elevated risk situations
4. **Incident Response** · Immediate response to urgent incidents

1. Social Development

Promoting and maintaining community safety and well-being by bringing together a wide range of sectors, agencies, and organizations to address complex social issues from every angle.

2. Prevention

Proactively reducing identified risks by implementing evidence-based situational measures, policies or programs to reduce locally identified priority risks before they result in crime, victimization and/or harm.

3. Risk Intervention

Mitigating situations of elevated risk by multiple sectors working together to address situations where there is an elevated risk of harm and stopping something bad from happening right before it is about to happen to reduce the need for and systemic reliance on incident response.

4. Incident Response

Critical and non-critical incident response, or what is traditionally thought of as crime and safety; that includes immediate and reactionary responses involving a sense of urgency such as police, fire, emergency medical services, and child welfare organizations.

Each Township will prepare an annual impact report highlighting accomplishments and measurements of success in each of the identified priority areas.

This report will be provided to respective Councils and made publicly available on each Township website for community members and stakeholders.

Timelines and priorities will be unique to each Township, but actionable items are anticipated to be undertaken within 3 - 5 years.

Conclusion

This CSWB Plan lays the groundwork for our municipalities to work together in a coordinated approach to promote safety and well-being for all residents in our communities. Building upon existing municipal partnerships and assets, this Plan endeavours to improve access to health, community supports, and adequate housing; while also enhancing a sense of belonging and connection.

This Plan has been built upon a strong foundation of data and local information, acknowledges service gaps and challenges, and takes supportive action in the pursuit of corrective goal achievement and/or progress.

It is important to note that this Plan recognizes many of the identified key priority areas lie outside the scope of local governments and would require a substantial infusion of funding to enact meaningful change; but addressing complex social issues requires innovation, adaptability, and proactivity from all levels of government to create safer and healthier communities. We, along with our community partners will aspire to make strides in goal realization in a supportive capacity through collaborative outreach, educational campaigns, and existing services promotion.
